

[Installation Guide – AquaTrax v2](#)

- 1) When you purchase AquaTrax you will be taken to a webpage with your activation details on. Make sure you print the details as they will be required for activating the software. If you lose the details, please log a call with us on the support website; <http://aquatrax.co.uk/support.asp>

Thank you for your purchase. If you have ordered a CD version then this will be sent to you within the next 7 days. You can however download the software straight away.

Your serial number and activation key are as follows.

Serial number:
Activation Key:

Please make a note of these as you will need them in the future.

Click [HERE](#) To Download your software (23Mb). Please do this straight away as you will not be able to do it again.

- 2) Select the “Click HERE” link to begin downloading of your software. When prompted, save the compressed (Zip) file to an easy to access location such as your “My Documents” folder or Desktop. If you no longer have the link or have lost your software, please log a call with us.

- 3) Once the download has completed, navigate to this folder and find the file you have just downloaded. Double click it to open it and extract the contents. Windows XP and Vista include a built in ZIP file reader so you should just be able to double click the file to open it. You will now see the installation file AquaTraxV2.MSI. If you have any trouble opening the ZIP file, please contact us for assistance.

4) Double Click this file to begin installation

5) Follow the prompts and make sure you select "I Agree" on the licence agreement:

:

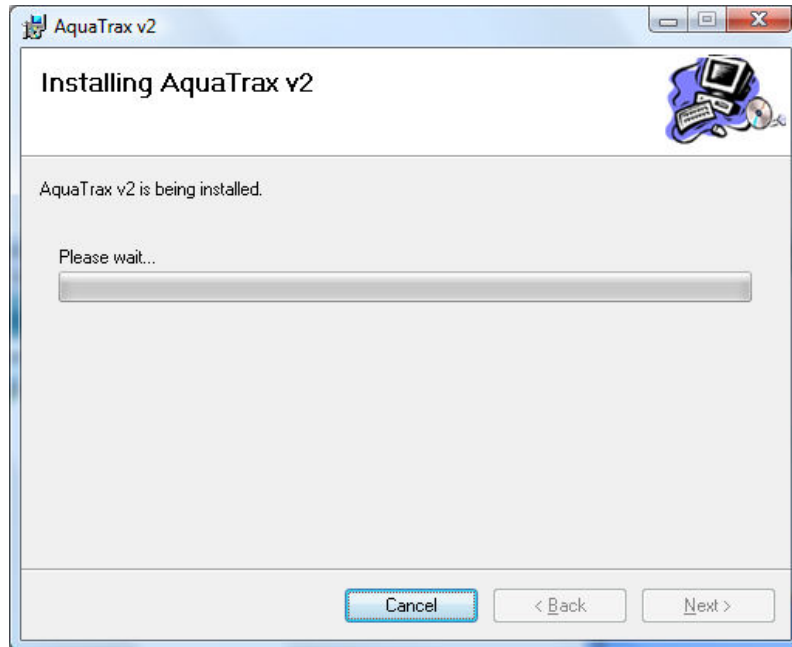

6) The next screen will require you to enter your licence details which you should have printed off earlier:

The screenshot shows a dialog box for entering license details. It has a light gray background and a white border. At the top, there is a label "Name:" followed by a text input field containing "Mr Joe Smith". Below that is a label "Organization:" followed by an empty text input field. A paragraph of text reads: "Enter your serial number below. The installer will use this information for subsequent installations." Below this is a label "Serial number:" followed by four small, empty text input fields separated by hyphens. At the bottom of the dialog, there are three buttons: "Cancel", "< Back", and "Next >". The "Next >" button is highlighted in blue.

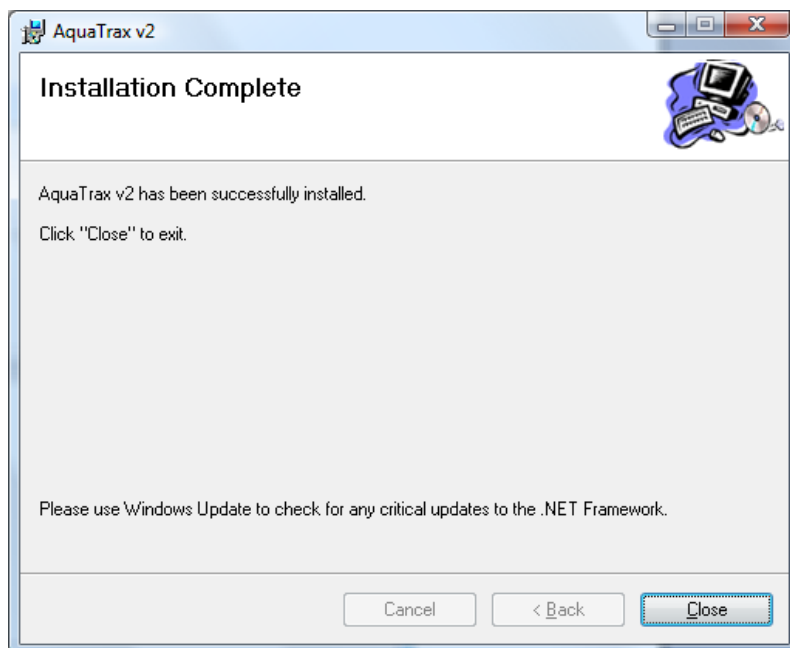

7) Click "Next to continue and you will be asked for an installation path. This will be completed for you with a default directory, but you may change this if you wish:

The screenshot shows a dialog box for selecting an installation folder. It has a light gray background and a white border. At the top, there is a label "Folder:" followed by a text input field containing "C:\Program Files\AquaTrax v2\". To the right of the input field are two buttons: "Browse..." and "Disk Cost...". Below the input field, there is a paragraph of text: "Install AquaTrax v2 for yourself, or for anyone who uses this computer:". Below this text are two radio buttons: "Everyone" (which is selected) and "Just me". At the bottom of the dialog, there are three buttons: "Cancel", "< Back", and "Next >". The "Next >" button is highlighted in blue.

8) Installation will now continue:

9) At the end of the installation, you should see a confirmation message:

Start AquaTrax by double clicking the new icon on your desktop (or in your Start Menu).

After a short while you will be prompted once again to enter your serial number along with the activation code you also received.

Activate AquaTrax v2

Before you can use AquaTrax v2 you need to activate it. Complete the following fields and click Activate. For assistance visit www.aquacom solutions.co.uk

Name

Email Address

Serial Number

Activation Code

Activate

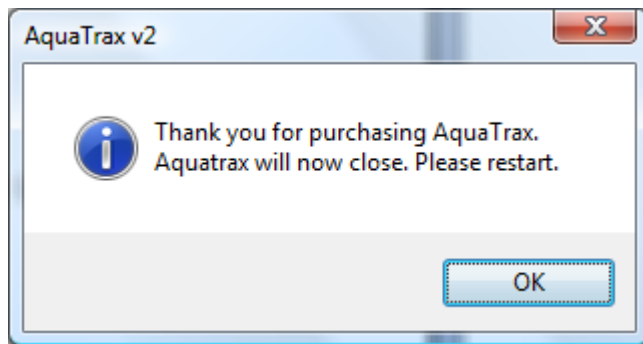

AquaTrax will now attempt to connect to the internet to activate your software. Please note, this is an essential step and your software cannot be used until this is successful:

AquaTrax v2

i AquaTrax will now connect to the internet to authenticate your serial number

OK

Once AquaTrax has been activated you will need to restart it and you're ready to go!

There is a step by step guide on the start page and please visit the AquaTrax website at <http://aquatrax.co.uk/support.asp> for up to date FAQ's and Support knowledgebase
